

"Beat Varsity!" Slogan Of Red Athletes For Week-End

Great Track Battle Looms As Five Colleges Compete

Intercollegiate Championships at Stadium — Meet Starts At 1 O'clock — Entry List of Sixty-two — Olympic Stars Compete — Loaring Favoured For 440 And Low Hurdles — Ferris A Dark Horse in 880 — Moore Features Javelin Entry.

CANADA's sixty-two leading college athletes will be the focus of all eyes as they compete for the honour of their five respective universities in the 34th annual Intercollegiate Track and Field Championships at the Stadium this afternoon. The meet is scheduled to start with discus and pole vault events at 1 o'clock, and by 2 o'clock the fastest events, including the century dash and the high hurdles, will have been run off, so that all smart track fans will be in their seats sharp on the stroke of 1. Student coupons will be honoured.

"Sprinter" At Stake

Dr. Tait Mackenzie's bronze "Sprinter" is the trophy which Varsity, Western, McMaster and Queen's will be attempting to wrest from Coach Van Wagner's Redmen, holders for the past six years. While the meet is not expected to develop into a mere two-way struggle between McGill and Toronto, as has been the case in recent years, the experts are looking for the two oldest colleges to come out on top. The same experts, however, are not predicting which of the two it will be, and the relay race on Saturday at the football game will very likely be the deciding factor in the championship.

Leading figures in the meet include the Olympic men, Johnny Loaring of Western, and Larry O'Connor and Al Conway of Varsity. Loaring, as a silver medal winner at Berlin, is heavily favoured to retain his 440 dash title, and, given a good track, crack Bill Fritz' 1934 mark of 50.2. Conway will be right in time to push Loaring to the limit, while Vaughan Mason, sensational McGill newcomer from University of Pennsylvania, will not be far behind.

Dark Horse in 880

Terry Ferris, who with Lyle Fleming and Loaring made the trip to Australia with Dr. Lamb's schoolboy team in 1934, is a real dark horse in the 880. Ferris has run the distance in 1:59.4, and Varsity's Conway and McGill captain Munroe Bourne are no slouches at the half-mile either. In the mile, Bob Quimby, former Dartmouth ace, will be McGill's chief hope, along with Bourne, who just beat him out in a great duel at the Interfaculty Meet. The time on that occasion, 4:32.8, was considerably better than that showed at either of the other college meets.

Another race worth watching should be the high hurdles. Gene "Red" Record, former Harvard captain who has lived up to his name during his two years at McGill, will give Larry O'Connor, Blue star, a great battle all the way in the timber-topping event, and O'Connor's record of 15 seconds flat set last year will be in danger on a good track. The presence of Loaring

Loyalists Discuss Spanish Democracy

With "Spain and Democracy" as their topic, three Spanish notables including the president of the Left Republican Party, will speak to McGill Students this afternoon at 5 p.m. in the Union Ballroom. The speakers, representing the democratically elected government of Spain, stop in Montreal as one point on their world-wide tour of public enlightenment on events and conditions in Spain. In addition to their McGill address, they will speak tonight at a mass meeting in the Mount Royal Arena.

Principal speaker of the delegation is a woman, Signora Palencia, who made recent fame in her address to the British Labour Party Congress at Edinburgh, where she swung the delegates from their former apathetic policy to one of enthusiastic support for the Spanish government. She is a delegate to the League of Nations and a member of the Spanish Cortes. Also included in the delegation is the famous Catholic Priest and writer, Rev. Luis Sarasola, and the president of the Left Republican Party of Spain, Marcelino Domingo.

The Social Problems' Club brings these speakers to the campus as a part of their policy of forming a link between student thought and the outside world. The meeting, as all others of the club, is an attempt to foster student opinion upon matters vital to them as a leading force in the community.

Tweedsmuir Will Toast McGill At Graduate Banquet

Governor-General's Address Broadcast Over Nation-Wide Hook-up

His Excellency, Lord Tweedsmuir, will be the Guest of Honour at the Men Graduates' Reunion Dinner to be held in the Ballroom of the Windsor Hotel at 7:15 p.m. tomorrow. The Governor-General's address will be broadcast over a nation-wide radio hook-up. After the toast to the King, His Excellency will propose the toast to "Alma Mater." Sir Edward Beatty, Chancellor of the University will respond. Arthur E. Morgan, Principal and Vice-Chancellor of McGill, will lead the toast to the Graduates' Society, to which Dr. Frank S. Patch, Vice-President of the Graduates, will reply. Austin Wright will convey greetings from the Montreal Branch of the Alumni Federation of the University of Toronto.

Mr. John T. Hackett, K.C., President of the Graduates' Society, will be in the chair. Other guests at the head table are as follows: Dr. W. McCleure, Dr. C. Nevil Norton Evans, both of whom were recently granted the Honorary Degree of Doctor of Laws by McGill; Dr. D. S. Lewis, Dr. C. F. Martin, Mr. A. Wright, Lt.-Col. Herbert Molson, Dr. W. H. Brittain, Hon. Smeaton White, Sir Charles Gordon, Hon. A. C. Ruthenford, Mr. J. W. McConnell, Mr. P. N. Southam, Mr. Eric Reid, Mr. Huntly P. Drummond, Dr. W. W. Chipman, Mr. Justice Barclay, Dr. T. H. Leggett, Mr. A. B. Purvis, Mr. W. M. Stewart, Mr. J. M. Sharpe, Mr. J. W. Rose, Mr. George C. McDonald, Mr. A. Savard, Hon. Gilbert Layton, Mr. George S. Currie, Mr. P. F. Sae, Mr. T. J. Coonan, Mr. D. C. Abbott, and Capt. P. J. S. Bayle, A. D. C. to the Governor-General.

Balloon To Hover Over Rugby Game

A SPECTACULAR scientific experiment will take place this afternoon at the Stadium. Two balloon ascensions are scheduled to take place. Ours will be under the able command of Major Forbes, while the Varsity balloon will be directed by the greatest scientific minds of that university. The Major hopes to bring back several bottles of Cosmic Rays from the Superstratosphere.

Since there are no lectures today, and many professors will be at the game, no difficulty is expected in obtaining sufficient hot air to fill

Special Convocation Bestows Degrees On Five Graduates

Chancellor Beatty Officiates At Colorful Ceremony

IN MOYSE HALL

Emeritus Professor Chipman Delivers Main Address

"I HAVE been Chancellor of this University, for good or evil, for 15 years, and never in those 15 years have I been so satisfied of the university's future prosperity as at this moment," declared Sir Edward W. Beatty on opening the Special Convocation, held on the occasion of the Graduates' Fourth Quinquennial Reunion, in Moyses Hall yesterday afternoon.

The proceedings opened with a prayer led by the Reverend Dr. F. Scott Mackenzie, Principal of the Presbyterian College. Surrounded by a brilliant assemblage, colourful in their robes of academic honour, Chancellor Beatty delivered the address of welcome. Led by the Conservatorium Orchestra, the entire Convocation sang "Hail! Alma Mater."

Degrees Conferred

The ceremonial conferring of the Honorary Degree of Laws was then performed. Maude Abbott, B.A. (1890) M.D., C.M. (Bishop's), Hon. M.D. (1910), late Assistant Professor of

Grads Everywhere Contribute To Gym

By G. H.

THE Gymnasium-Armoury has been in the Daily's columns for several issues at the time of writing. Most of the news has been as to how much money is needed and to what advantage the funds will be put. However, from the tenor of the news, the campaign may appear to be somewhat localized. This is far from true.

From the president of the McGill society of Ontario comes a word of enthusiasm for the Gym. "As a gift from her grateful alumni." During the summer months, Dr. C. F. Martin relates some of the interesting experiences which he had on a "Holiday Trip," and tells of the cordial reception the mention of the Sir A. Currie memorial received at various meetings and dinners of active alumni. Dr. Martin included in his itinerary, Regina, Edmonton and Winnipeg. Thus the story of the campaign is carried to all parts of the Dominion wherever McGill "Grads" may have wandered from the daily walks of campus life. In London, last June, the principal and Sir Edward Beatty, were present at a dinner at which 70 "Old Boys" extended a hearty welcome from across the sea. At this dinner, Sir Henry Britain was appointed honorary chairman, with Major W. E. Gladstone Murray as president of the British Isles branch. The trail now turns to New York, where graduates society of over 250 men have gotten together to form plans for campaigning to the end that a Gymnasium-Armoury be built. Chicago and Buffalo are also lending a helping hand.

To quote from an issue of the Campaign news bulletin: "The Campaign Committee can give publicity to the project; organize the workers, and raise the money." (Continued on Page Three)

Klein To Address Maccabean Circle

THIS Sunday the Maccabean Circle holds its second meeting of the season. The guest speaker will be Mr.

A. M. Klein greatly interested. Ludwig's Lewysohn spoke of Abraham Klein as 'the most Jewish poet who has ever used the English tongue, and the only Jew who has ever contributed a new note of style, of expression, of creative enlargement to the poetry of that tongue.'

The balloons, which are nine feet in diameter. As additional attractions there will be the Jousting Tournament which was called off last week, a relay race, and a high-bar gymnastic display.

Worried Freshmen Now Look To Happy Future

Dance To Follow Saturday's Game

PROVIDING it rains to-morrow, as usually happens, (and even if it doesn't), chilly, damp, bedraggled football cuties and grandstand quarterbacks will have a good chance to warm up and swing at a more comfortable temperature at the Union's second Tea-Dance, Howard Simpson's Privateers are in charge of the "swing" end of things, while the Union Restaurant is taking care of the necessary calories to satisfy football appetites. Supper will be served at 6.30 and the dance will end an hour later when everyone should be dry and warm enough to rush out and fight the storm. A dollar is the sum necessary to purchase admittance from Bill Gentlemen, Bert Yates at the Union Truck Shop or at the Stadium Gates. Dancing will commence at five.

Latest news flashes concerning the big event of the Freshman's year, "The Prom," is that Dr. and Mrs. Keys have consented to be patrons. Dr. Hatcher will be the guest speaker at the Freshman Dinner. The Union Ballroom will be decorated for the big occasion. Monday night is "the" night.

Students Investigate Life In The Raw

TO GET intimate view of Montreal's social conditions

FROM night clubs to police courts; from bright lights to grimy hovels; from excessive wealth to squalid poverty will be the route of a number of McGill students who intend to make a survey of Montreal this evening, starting at 8.30. They hope to get a bird's eye view of the whole city, to see its vices and virtues, to probe its darkest corners and to find out what happens a few miles from their doors. They expect to visit the unemployment bureaux and the various social agencies which care for the destitute, to get a better understanding of social values. Previous to this trip, Miss Eleanor Reid will lead a survey by map and show students what they don't know about Montreal.

DISCUSSION FOLLOWS

The Sunday programme consists of a discussion of the reports and observations by King Gordon on "Montreal and the World Scene," followed by a discussion, and a chapel service at 7.30 at Divinity Hall 3410 Dorchester St. Following the service, Professor L. C. March will speak at an "Open House" at 9 o'clock on "Sweden and Russia."

"The Pit" administration, desiring to enlarge its staff, will hold elections for two more members. All McGill students are eligible. Nomination lists must be signed by at least ten students and submitted to "The Pit" on Monday by 7 p.m. The elections will be held on Wednesday from 10 to 2, and from 5 to 7 o'clock.

Coupons

Please collect your students' coupons before 6.00 p.m. today. No coupons will be issued tomorrow.

Kerr Klan In Last Stand Against Varsity Tomorrow

Lord Tweedsmuir to Be Present at Game — Relay Race For Half-time — Cam MacArthur Leads Well-drilled McGill Footballers Into Crucial Struggle — Toronto Band Coming — Ishister in Kicking Role For Blue-Boys — Bourne, Mack Out of Game.

WITH their backs firmly against the wall, the McGill senior football team awaits the invasion of Warren Stevens and his Varsity Beavers at Molson's Stadium tomorrow afternoon. The game is scheduled to start at 2.15 p.m., and will undoubtedly be one of the classics of the present season. The Kerr Klan must win this game to remain in the running for a play-off position, having lost both of their previous games to Queens and Western. The team held their final heavy workout last night, most of it in the rain and if conditions don't change soon the team will become real good mudders.

Red Mentor

Doug Kerr has great faith in his squad's ability to come through in their last chance in the title fight.

Stevens' Blueboys Wary Of Upset In Saturday's Tilt

By Jim Tiller
Sports Editor, "The Varsity"

TORONTO, Oct. 22.—(Special to McGill Daily).—Realizing that the McGill Redmen are a stronger team than the scores to date would indicate, the Varsity Beavers are anticipating and have prepared themselves for a hard struggle in Molson Stadium to-morrow.

Fresh from a 14-2 victory over the powerful Tri-colour that marks them as a stronger squad than the Big Blue team of last year, the Beavers hope to take the decision to-morrow but they are taking nothing for granted—there have been too many up-sets in rugby this fall. Warren Stevens' crew are taking no chances on losing their lead in the college loop, and the word is out that they will play go-getting for 60 minutes.

Big Bob Ishister will be handling the kicking duties. Bob played a marvelous game against Queen's last Saturday and is expected to give another fine performance. Bob is also entered in the shot-put at the track meet to-day. With him on the half-line will be Cam Gray who specializes in kicking placements. Cam is the sole remaining member of last year's famed Four Horsemen. Varsity's third backfield position will be filled by "Red" Nalley, a first-year man.

It is not known as yet whether Sid Jackson, Varsity's fastest and trickiest ball-carrier will be able to play or not. Sid has been out of the game with a bad ankle. He missed the bout with Queen's but may be ready for to-morrow. Ralph Ripley, the flashy young quarterback, will be doing the talking in the Beavers' huddles with Barry Gray, no relation to Cam, ready to relay.

Vengeful Freshettes Warble Weird Programme To Sophs

LAST night, the Freshettes and new students over at R.V.C. very vigorously whooped it up for the express benefit of the sophomores. This affair constituted the last part of the heckling campaign of the said Sophs and had been the sword of Damocles over the Freshettes for two hectic weeks. But they crashed through. Leave it to the Freshettes. Or just leave it.

The Program was truly inspiring. As well as inspired. It took place in a little dive called the "Martlet Club." The discriminating clientele were amused (we hope) by a varied and more or less spontaneous program. First the Martlet Chorus trooped out to sing a little number. They sang it, and trooped out again. Incidentally the song was written by Virginia Guy.

Next the Phys. Eds came out and did their stuff. It looked like an Indian War Dance. As a matter of fact, it was. And that's not all. A trio, consisting of three little maids from school came out and warbled "Until The Real Thing Comes Along." Later on the same program they did "When a Lady Meets a Gentleman Down South." Somewhere in between that a very mellow drama was presented, called "Reginald's Ruse, or The Fairest Flower South of Scotland." That dealt with the dilemma of Lucy Sophs, who brought down the house with her observation that "Rags are royal raiment, when worn for Virtue's sake." Virtue, Gesundheit. Cider and sandwiches were served, and everybody went home tired but happy. As for the show, it was colossal! Stupendous! Marvellous! Well anyway, it was pretty good.

Vol. XXVI — No. 16

O God! O Montreal!

WHAT do you know of Montreal, the metropolis of Canada, the only truly cosmopolitan Canadian city? of its racial composition? of its poorer districts? of its industrial plants and conditions? of its myriads of people and their living conditions? Are you aware that in some wards 300 of every 1000 children born die in infancy? that one fifth of the people in Montreal are living on relief, completely destitute? that one eighth of the dwellings are rented by the Relief Commission? Knowing these facts, and recognizing what they may mean in social unrest, have you the imaginative power to depict the misery, the suffering, the utter degradation, the senseless waste of human personality and ability that exists in our renowned and beautiful metropolis?

If you aren't acquainted with some of these conditions the accusation commonly made against students — that they are out of touch with the world in which they live and that their study lacks reality, is probably true. The trend of events in the world today makes such ignorance increasingly dangerous and inexcusable. An event of deep significance being held this weekend in the university provides an excellent opportunity for students to educate themselves with first-hand knowledge about conditions in their own community. The "Know Your City Weekend" will provide as well opportunities for discussion with people who are conscious of the social confusion of the world today. Attendance at its sessions will enable you to join fervently with Butler in his hymn of praise: O God! O Montreal!

The Spanish Speakers

THE Social Problems Club today sponsoring a symposium by three noted Spanish speakers, two of them being former members of the Spanish Cortes, and the third a well-known writer and commentator on political and ecclesiastical affairs. Their speeches will deal with the world-stirring revolution in Spain at the present moment, as the Fascist forces are pounding at the gates of Madrid. The three speakers are suffering a self-willed exile from their native land, because of their profound conviction that a democratic society, as opposed to a socialist or fascist regime, is the sole method of achieving a well-ordered government, at the same time preserving individual freedom and liberty.

This symposium is of two-fold importance to the Student body here at McGill. First, because of the possible consequences and sequels to the revolution, which might precipitate the already heated political situation in Europe. War in Europe would certainly affect Canada and Canadians, economically, politically and socially.

Secondly, and perhaps even more important than the first consideration, is the fact that we, here in Canada, are not as immune from such conflict as we might have liked to feel in the past few years. The growing menace of both Fascism and Communism are making themselves felt, especially here in the Province of Quebec. While the possibility of open conflict in Canada remains comparatively remote at present, yet these opposing schools of thought are imposing their doctrines more and more.

If the student body feels that democratic institutions are the only hope of saving us from the conditions that exist throughout Europe, it is our duty to make ourselves cognizant of the problems and methods to combat the new political theory.

Sports Day

THIS week-end McGill is en fete for the host of graduates at the Quinquennial Reunion, and two of the high spots of the Reunion are the important athletic events today and tomorrow. Here we students have an opportunity to make a lasting impression on our visitors, so that they shall not return home convinced that all college spirit of the best type has departed from the college "neath the hill". Not rowdy demonstrations, but attendance in full force and lusty vocal support are to be expected both at today's Track Championships and at the Varsity game tomorrow. This is Sports Day and let us observe its true sportsmanlike spirit with enthusiasm and discretion.

will add more than ordinary interest to the 220-yard low hurdles, and Jimmy Worrall's 1934 record will hang in the balance.

Several Footballers Entered

Bert Love is favoured to take the pole vault for the Red squad, but will be hard pushed by the Tricolour representative and star footballer, Johnny Edwards. Other footballers in the meet include Bob Isbister, who will be preparing for his punting attack in Saturday's game with a little competition in the weights events. However, chief interest will centre about Claude Moore, the phenomenal javelin thrower who scored the winning touchdown for Western here last Saturday. Moore set a new mark of 170 ft. 3 1/4 in. in the London Interfaculty meet — without bothering to remove his street clothes — and with firm footing will likely break the mark he established last year at Toronto.

McMaster's entries, which were received late, include only two of last year's team. Ken McAdam, Dominion Intercollegiate record-holder, should give Gordie Melkjohn close competition in the shot put and discus, while Thornton is entered in the hurdles events.

All in all, it's going to be a great meet—one which shouldn't be missed. Confidentially, we're putting our money on McGill—but then, maybe we're prejudiced. Anyway, we wouldn't be surprised if the relay tomorrow will settle the meet.

Entries in Each Event

cord results—but the money must come from the 14,000 students who passed through McGill in the last half century.

If the undergraduate body will lend their enthusiasm to that already shown by the graduates, the task of erecting this Memorial, will be not only very easy, but an item of great interest to all those who are at the present time enrolled in the University. Already many students have pledged themselves to the support of the Gym-Armoury. Will you be the next?

RAMBLING at RANDOM

By EGO

THE stage was set today for opening of Canada's greatest college sports spectacle, the Intercollegiate track meet and the McGill-Varsity football game. In the past these have always come close together, but usually on different fields. This year however, they not only follow one another on consecutive days but both are being staged at Molson Stadium.

It will be a great spectacle, with the stands filled with graduates, who, while cheering for McGill, will be reminiscing on the days when they themselves were rounding the track or running the ball down the field. Many will talk of "Billy" Billingsley, and his famous 55-yard drop kick that defeated Queen's 25 years ago in the last minute of play, while others will think of "Bill" Murray as he rounded the last turn of a four lap race to win the intercollegiate, just as long ago.

It will be a great day for the grads, but just as great for the undergrads. College spirit, an extinct factor that should be exhumed, seems to come to life on this particular weekend and McGill once more becomes our Alma Mater, not just our college. Return of the grads at their homecoming is an omen that bodes well for the week-end. Football players, the McConnells, Merfields, Letourneaus, MacArthurs and others will be just a bit more eager to show "the old boys" they too can play football, while the trackmen, the Bournes, Masons, Pounders, Franktons, will run just a bit faster, to prove themselves equal to the Hays and other greats of the past.

BOTH football and track present competition that will bring out the best in McGill that even the grads cannot inspire. Varsity with its undefeated football team—a squad that started the season as underdog of the intercollegiate union—is no cog in McGill's playoff hopes. It is sabotage in the Kerr machine, and just how successful that sabotage can be remains to the investigating commission—the players themselves.

The track squad—Varsity with its Olympic stars Ab Conway and Jim O'Connor, its Brown sprinters and broadjumpers and field man Isbister, stand more chance than any opponent of gaining the coveted Dr. Tait Mackenzie "Sprinter," but Western's Johnny Loaring, Olympic silver medal hurdler, Paterson, last year's college 220-yard champion, Ferris, middle-distance star, Moore, javelin throwing ace, and a host of other top-notchers, will spoil at least one team's chances of taking the title.

Coch Van Wagner, always stressing balance rather than stars has the first jump on his opponents. There will be few first places gained by the McGill men, but it is the seconds and thirds win track meets. McGill goes into track meets as a team—not as an all star aggregation. Monroe Bourne in the mile, Clarry Frankton in the three miles, and Gordie Melkjohn in the weights are the only safe bets for individual championships, but there will be seconds from Pounder, Smith—although here is a possible first—Record, Todd, and thirds from Thomson, Mason, Purdie, Morgan and the other bearers of the red.

Football, with promises of a dry field, also fits into the McGill picture. The Kerr men are not a "mudding" team. They have shown that against Queen's and Western. Varsity, boasting as their greatest threat a kicker, have won in quagmires. McGill is a backfielders' team, fronted by a good, but not brilliant line. Varsity has one backfielder and seven good linemen. It also has won two games and can afford a loss. McGill has no wins and must win. Possibly this is McGill's week-end. Certainly the past two have been 100 per cent for the outside. It is the Grads' weekend, but it is up to the undergrads to make it a success for them. Don't let them down, McGill!

Special Convocation Bestows Degrees On Five Graduates

(Continued from Page One)

Medicine and Curator of the Museum of the History of Medicine, was presented by Associate Dean J. C. Simpson. Nevill Norton Evans, B.A.Sc. (1886), M.A.Sc. (1892), Emeritus Professor of Chemistry was presented by Dean F. M. G. Johnston. William McClure, B.A. (1870), M.D. (1884), late Professor of Medicine of Cheefoo University, Tainan, China, was presented by Professor J. C. Meakins. Philip Dansken Ross, B.A. Sc. (1878), LL.D. (Queen's) Ex-President of the Graduates' Society, Governor of the University, was presented by Dean C. S. LeMeurier. Sherman Charles Swift, B.A. (1907), Librarian of the Canadian Institute for the Blind and Editor of the Braille Courier, was presented by Professor J. R. Lomer.

Dr. Chipman, chief speaker of the assembly, outlined the growth of the Graduates' Reunion movement from 1920 when the Graduates' Society of Vancouver first put forward the idea, till the present day. At the McGill Centennial celebration of 1921 it was suggested that Class Reunions should be held every five years.

Among the suggestions made by the first Graduates' Reunion to the new Principal, Sir Arthur Currie, was the advancement of research and study by all possible means. In that year, 1921, the Graduate Faculty was implemented and reorganized as the Graduate Society of Research, at the present time 218 men and women are enrolled in its regular courses.

The speaker then sketched the history of the Graduates' Society itself. It was at a meeting of the United Kingdom Branch that Principal Morgan made his first contact with McGill.

coach how to take his man out of the play.
Jim Hall, covered completely in mud, tackled well and was also trying his hand at a couple of place kicks. Bartram and Telford along with Tom Schofield worked out at the middle positions and presented plenty of power. At the start of the workout the team was a little weak on an adequate defence near the goal line but at the end they had mastered the art well and high perfectly. Captain Cam MacArthur kept the team on their toes and the boys will not be lacking in spirit and fight when they start the game Saturday. Russ Merfield the surest ball handler on the outfit showed up well in the backfield.

Isbister Star For Varsity

Outstanding star that Warren Stevens will present tomorrow will be Bob Isbister, ace kicker of the intercollegiate circuit and star of last week's victory over Queens. This is Bob's third year in senior football and he seems to be at the top of his form. Cam Grey is another half who will need plenty of attention in the game. His specialty is kicking placements. A new star in college football is Ralph Ripley, the man who calls the plays at quarter for the Beavers (Blue-Boys to you). Ralph throws most of the Toronto forwards and is said to be very fast in the backfield. Gus Greco is the ace line-

man on the squad. He plays at middle and made the all star team last year. Al Williams snaps the ball back to his team mates and Toronto papers claim he is one of the most reliable in the game.
The McGill men who will miss the game due to injuries are Pete Bourne and Ernie Mack, whom it was hoped would be able to get into the game. Replacing them will be some of the following intermediates, Dunphy, Perowne, Craig and Rossiter.

The probable starting line-ups are as follows:

McGill	Position	Toronto
Robb	snap	A. Williams
Hornig	inside	T. Williams
Tabak	inside	Sirdevan
Bartram	middle	Greco
Telford	middle	Harris
Hall	outside	Holden
Leloutre	outside	Alison
Kenny	f. wing	Edwards
MacArthur	half	Isbister
McConnell	half	Grey
Merfield	half	Nalley
Hamilton	quarter	Ripley
